CUSTOM GRADE PRODUCT

PT Charcoal Future Nusantara offers a special Custom Grade service for charcoal briquettes, allowing customers to get charcoal briquettes tailored to their specific needs and preferences. With our Custom Grade service, you can access high-quality charcoal briquettes with various customizable options, including shape, size, quality, and packaging.

Advantages of Custom Grade Charcoal Briquette Products:

Customizable Briquette Shapes:

With our Custom Grade service, you can choose the shape of the briquettes that suits your needs. We can provide briquettes in square, cylindrical, or other custom shapes as per your request.

Tailored Sizes:

Briquette sizes can be adjusted according to your preferences. We can provide various sizes, from standard dimensions to special sizes that suit your intended applications.

Selectable Charcoal Quality:

With Custom Grade, you can choose the charcoal quality that meets your requirements. We offer various levels of quality, allowing you to match your specific needs and budget.

Adjustable Moisture and Ash Content:

We can customize the moisture and ash content in the charcoal briquettes to your desired specifications. Low moisture content and minimal ash content ensure optimal combustion efficiency.

Special Packaging:

Our Custom Grade service also includes options for custom packaging that can be tailored to your brand or preferences. We can provide labeled packaging with designs and information as per your request.

Personalized Service and Technical Support:

Our expert team is ready to provide personalized service and technical support in selecting the most suitable Custom Grade products for your needs. We will assist you throughout the selection and production process.

With Custom Grade Charcoal Briquette Products from PT Charcoal Future Nusantara, you can obtain briquette solutions that match your unique requirements. We are committed to delivering high-quality products with professional and reliable custom services. Contact us now to discuss your custom needs, and we will be delighted to help you create the perfect charcoal briquette products to meet your specifications.
